Applied Ergonomics

Index to volume 4 (1973) nos 1-4, pp 1-256

A

Accelerometer for car wash testing 186
Accident prevention in industry; Report on 190
– ; Solent hovercraft 56
Accidents; More action, more money wanted to prevent 63
Advanced conference facilities 254
Aircraft noise – how can the nuisance be controlled
J. B. Ollerhead 130
Alcoholism in industry 186
Aluminium rules 126
American technical products competition 125
ANSI to analyse Consumer Product Safety Act 60
Anti-reflection coated sheet glass 250
– filter for readouts 253
– glass 247
Applied psychology in the production of a British Standard
K.F.H. Murrell 29

White, T.G. 96
Wolff, H.S. 207
Automatic "Smoke-stop" doors 124

B

Basic ergonomics
H.S. Wolff 207
Bias in ergonomic experiments
E.C. Poulton 17
Books
Human engineering guide to equipment design,
Van Cott and Kinkade 246
Perceptions of work,
Beynon and Blackburn 47
Progress in construction science and technology No 2,
Burgess, Horrobin and Simpson 246
The computer in psychology
Apter and Westby 246

C

Calculator; Small new printing 189
Car courtesy lamp delay 249
Childrens' seat belts 187
Chromium plating regulations and test kits 127
Computer language for special education pupils 247
Computers in offices; Impact of 63
Conferences
British Safety Council Ergonomics Conference 244
Design and use of symbols 53
ERS Annual Conference 119
Flight deck environment and pilot workload 117
High speed pedestrian conveyors 243
IEA at Amsterdam 230
Job enrichment 116
The worker under stress 116
Visual presentation of technical data 55
Consumer safeguards group 184
Cost effective approach to industrial safety 59
Current levels of noise in an urban environment
G. H. Fisher 211

D

Dangers in demolition work 61
Demolition; Towards safer 251
Design Council awards; for consumer goods 126
– for engineering products 183
Desk-top calculator and clock 249
Developing a graphic set for cathode ray tube display using a 7 x 9 dot pattern
A.G. Vartabedian 11
Development of Autonov 1 222
Dial unit for machine tools 187
Dictation equipment speeds control testing 57
Digital data display 249
– indication for easier telethermometer reading 184
Displays; Human Factor assessment of the legibility of five numeric visual
B.Copping, V.D. Alexander and Jacqueline J. Hunter 144
– ;Incandescent alpha- numeric 185
Driver's eye position relative to the 'H' point for trucks and buses
H. P. Ruffell Smith 139
Dust sampling device 187

E

Education; Ergonomics and 175
Effect of fatigue upon inspection work
D. McIntyre 66
– of speed of working on industrial accuracy
C. G. Drury 2
Electronic speech recognition 253
Emergency lighting 255
Employment medical advisory service 57
Environmental hygiene conference 59
Ergonomics and safety conference 57
– in Action: Industrial ergonomics at Birmingham
E.N. Corlett and B.T. Davies 168
Eye response measurement 250
Eyesight testing 254

F

Fire safety criticised in annual report on Offices, Shops and Railway Premises Act 60
Flight deck environment and pilot workload 59
– – –
– ; Biological measure of workload
J.M. Rolfe and S.J.E. Lindsay 199
– simulator research at the RAF Institute of Aviation Medicine
J. M. Rolfe 84

G

Gauges and tape rules 188
Guide to thermal comfort
D. McIntyre 66
Gymnasium safety equipment 184

H

Hand gun for pruning 247
Health care and health technology symposium 248
– code for lead industry 248
Home; Ergonomics for the 59
Hospital bedsteads 189
Hotel audio-visual system 126
Human Factor assessment of the legibility of five numeric visual displays
B. Copping, V.D. Alexander, and Jacqueline J. Hunter 144
Hypothermia in the elderly 123

I

IEA at Amsterdam 230
Industrial audiology and hearing conservation course 186

– discipline report 191
– relations training called for in CIR report 61
– safety campaign 59
– ; Hand and foot 253
Initial job difficulties 191
Inspection accuracy; Effect of speed of working on industrial
C.G. Drury 2
– work; The effect of speed on
D. McIntyre 66
Instructions for consumers 253
Instrument knobs 125

K

Keyboard entry checking equipment 124
– style for pocket caluclator 61
– switch module 59

M

Manual gear-boxes assist production 255
Meter reading; Cheaper ways of 125
Metric awareness survey 126
Metrication and paper dress patterns 249
– ; Wood and board 189
Miniature edge control 58
Mobile cranes; Ergonomic survey of
T.G. White 96
Monitoring systems for patients 186

N

Noise; Aircraft – how can the nuisance be controlled
J. B. Ollerhead 130
– ; American Standard should limit environmental 191
– disturbance; Aircraft 253
– in an urban environment; Current levels of
G. H. Fisher 211
– in landscaped offices
J. Nemecek and E. Grandjean 19
– insulation grants 123
– level monitoring 127
– ; The psycho-social consequences of aircraft
H.C.S. Stockbridge and Mary Lee 44

O

Occupational safety 123
Offices; Noise in landscaped
J. Nemecek and E. Grandjean 19
– Shops and Railway Premises 254

P

Pacing machines booklet 61
Pillow for respiratory sufferers 255
Plastics in schools – safety and hazards 251
Pneumonoconiosis; Efforts to beat 189
Precision glass rules 124
Problems in determining rest allowances
W. Rohmert 91, 158
Procrustes 46, 105, 229
Protective equipment 254
Psycho-social consequences of aircraft noise
H.C.S. Stockbridge and Mary Lee 44
Push-button switch 251

Q

Quality control; Human Factors in 252
– of railway carriage environments
A. West, Frances Ramagge, Jennifer West, and Heather Jones 194

R

Readability of printed information 254
Rider and pedestrian pallet trucks 187
Roll-over protection on tractor shovel 252

S

Safe operation of printing presses 248
Safety – for small boat owners 57
– UK/German co-operation in ships safety equipment 58
– award; National 189
– awards for Esso 190
– document lists 253
– guide for power presses 185
– in construction 124
– in human vibration experiments 250
– in marine terminals 185
– in tractors; Personal 188
– ; Occupational 123
– performance; Managers warned to improve 255
– standards; Voluntary 125
Scaffold training centre opened 186
Scaffolding; Moveable 250
Sealed cover provides access for operator 60
Seat sensor switch assembly 185
Self-setting indicator saves time in weighing meat 57
Side-loaders – a case study in the port industry
N. M Hartwell 163
Simulator for driver training 250
Some problems of field research
Oonagh M. Hartnett and K.F.H. Murrell 219
Special scale speeds fabric weighing 190
Standard; Applied psychology in the production of a British
K.F.H. Murrell 29
Standards policy; Appeal for USA 251
Steam locomotive ergonomics
L.F.E. Coombs 23
Symbols Standard; International graphical 248
SYTLYN – A program for sight line calculation
R.F. Penn and D.G. Davies 34

T

Telephone developments 58
Thermal comfort; A guide to
D. McIntyre 66
Thermometers; Easy-to-read 123
Training for transport and physical distribution 57
– research register 125
Two-axis manual positioning and tracking controls
M.H. Mehr 154
Typewriter for severely disabled patients; Light spot operated 248

U

Universal spanner 188
USA consumer product law 58
Use of ergonomics in the design of new industries
T. Ivergård 150

V

Vandal-resistant pushbuttons and indicators 249

W

Walking sticks; Tripod and tetrapod 248
Whither workload?
J. M. Rolfe 8
Work area guards for rivet setting machines 184
Work study film 57
Working hours meter; Flexible 189
